EDUCATION

BSc (Hons) Software Engineering

NSBM Green University
2023 – Present

Certificate in English Language

IHRA – University of Colombo
2023

G.C.E Advanced Level – Arts Stream

Dharmapala Vidyalyaya, Pannipitiya
2020 – 2022

TECHNICAL SKILLS

Languages

JavaScript, Python, Dart, HTML & CSS, C, SQL

Frameworks

React.js, Node.js, Next.js, TailwindCSS

Tools

Git/GitHub, VS Code, Android Studio, NetBeans, MS SQL Server, Jupyter

Machine Learning

Data preprocessing, model training & eval, Scikit-learn, XGBoost

CERTIFICATES

Open Learning Platform, UoM

- Python for Beginners
- Python Programming
- Web Design for Beginners
- Front-End Web Development

SOFT SKILLS

- Root Cause Analysis
- Attention to Detail
- Problem-Solving
- Communication
- Teamwork & Collaboration
- Adaptability
- Time Management
- Presentation & Documentation

PROFILE

Software Engineering undergraduate with hands-on experience in front end development and machine learning. Skilled in building web applications using React.js, Next.js, Node.js, and Python, with a strong understanding of frontend development. Passionate about writing clean, efficient code and continuously learning modern web technologies. Seeking a Software Engineer internship to apply my skills and grow professionally.

PROJECTS

ACADEMIA – Online Learning Platform

React · Modular CSS

Built a responsive e-learning website using React and React Router, featuring course listings, instructor profiles, pricing plans, and a blog. Used functional components, React Hooks, and modular CSS for reusable, interactive UI components.

Admin Dashboard SPA

React.js · Vite · Recharts · CSS3

Fully responsive single-page admin dashboard with a collapsible sidebar, interactive Bar and Area charts, a paginated sales table, and dynamic widgets — To-Do List, Calendar, Messages panel — optimized across mobile, tablet, and desktop.

Diabetes Prediction System

Python · Scikit-learn · Streamlit

AI-powered web app predicting diabetes risk using an SVM model (~78% accuracy). Implemented data preprocessing, feature scaling, and an interactive UI with real-time risk assessment.

Movie Rating Prediction System

Python · XGBoost · Streamlit · Pandas

End-to-end ML app fetching real-time movie data from the TMDB API and predicting ratings using XGBoost with NLP-based synopsis encoding via Sentence Transformers.

FERROX CONCRETEX – Commercial Website

HTML · CSS · JavaScript

Responsive multi-section commercial website with dark industrial UI, CSS animations, client-side form validation, and a filterable card system with mobile-responsive navigation.

VOLUNTEERING

Arduino Community Sri Lanka — Community Volunteer – Arduino Day 2025
Mathematics & Statistics Circle — Student Volunteer – Maths Master
IEEE Student Branch – NSBM — Student Volunteer – Duothon 5.0
Hackathon Hub — Student Volunteer – Plymhack
