---

## PROFILE:

Highly motivated and enthusiastic Software Engineering undergraduate student who is seeking to find the opportunity to work in a challenging working environment that will encourage her to improve and learn new and necessary skills by the company to do her best for the sake of helping herself and the company.

---

## EDUCATION:

**BSC (HONS) in Software Engineering** - NSBM Green University (2023 - Present)

**Certificate Course in English Language (CCEL)** - IHRA – Colombo University (2023)

**GCE Advanced Level (A/L) Examination** - (Art Stream - 2020 – 2022(23)) Dharmapala Vidyalaya, Pannipitiya

---

## CERTIFICATES:

### Open Learning Platform – UoM

- Python for Beginners Certificate
  - Python Programming Certificate
  - Web Design for Beginners Certificate
  - Front-End Web Development Certificate
- 

## PROJECTS

### ACADEMIA – Online Learning Platform - React , Modular CSS

Built a responsive e-learning website using React and React Router, featuring course listings, instructor profiles, pricing plans, and a blog. Used functional components, React hooks, and modular CSS to create reusable components and interactive UI elements.

### Diabetes Prediction System - Python, Scikit-learn, Streamlit

Python, Scikit-learn, Streamlit Built an AI-powered web app that predicts diabetes risk using an SVM model with ~78% accuracy. Implemented data preprocessing, feature scaling, and an interactive UI with real-time risk assessment and health recommendations.

### Coffee Haven Website - Front-End Website | HTML , CSS , JavaScript

Developed a mobile-first responsive coffee shop website using HTML5, CSS3, and JavaScript. Implemented modern layouts with Flexbox/Grid, interactive navigation, product showcase animations, and form validation, focusing on responsive design and user-friendly UI.

### FERROX CONCRETEX - Front-End Website | HTML , CSS , JavaScript

Designed and developed a fully responsive multi-section commercial website featuring a dark industrial UI, CSS animations, client-side form validation, filterable card system, and mobile-responsive navigation — structured across separate HTML, CSS, and JS files.

## **SKILLS**

**Programming Languages:** JavaScript, Dart, HTML & CSS, C, SQL, Python

**Frameworks & Libraries:** React js, Node js, Next.js, TailwindCss

**Tools & Technologies Version Controllers:** Git/ GitHub, VS Code, Android Studio, NetBeans, MS SQL Server

**Machine Learning:** Data preprocessing, model training & evaluation (Scikit-learn)

---

## **VOLUNTEERING**

**Arduino Community Sri Lanka** - Community Volunteer (Arduino Day 2025)

**Mathematics and Statistics Circle** - Student Volunteer (Maths Master)

**IEEE Student Branch** - Student Volunteer (Duothon 5.0)

**Hackathon Hub** - Student Volunteer (Plymhack)

---
